

# Steven McGlone

## GOLF COURSE SUPERINTENDENT

---

### LEADER PROBLEM SOLVER SCIENTIST INNOVATOR

---

Results-oriented, solutions-focused, and versatile leader with more than 25 years of experience managing classic golf courses on Poa annua greens from California to New York. A well-rounded, proven industry professional, Steven has worked at some of the best clubs in America. Through his tenure he has transformed Siwanoy Country Club into one of the top-conditioned golf courses in the New York City area. Completing a \$6M restoration a decade ago allowed him to create surfaces that are much more efficient to manage. Firm & Fast isn't just a buzzword at Siwanoy, it's a constant. He has built a team of individuals that push this property to the brink but never past it from April through November. Being the longest tenured employee at Siwanoy, he is a leader in more than just greens. Siwanoy has become his home due to a membership and course that allows him to manage to the fullest.
